

Features:~

Slices and shreds are available. Suitable for small-scale catering and meat processing industry, especially school and factory's small canteen.

Cutter is adopted external hanging design. The revolving speed of rotating part is changed by turbine. Easy-to-use operation, convenient washing and dismounting, time and labor saving. If processing different thickness meat, just install the corresponding cutter.

The cutter gap is customizable. Inside the machine exists safety switch. When cutter exposure outside, it locks automatically. Blades are made of special stainless steel, with hardness of 52, durable in use.

Specification :~

MODEL	QX	QW-3
VOLTAGE	220 V	110/220/380V
POWER	550 watts	750W
YIELD	250 kg/h	800kg/h
DIMENSION	45 X 32 X 43 cm	680x 360x 760mm
WEIGHT	33 kg	80kg
