

Spiral Potato Cutter Machine

This Twisted Chips cutter adopted the frying techniques of pure chopsticks on sausage oil and filter, equipped with dynamic filter system, realized the automatic filtering and residue discharging, can ensure the fresh of the frying oil, the electricity or gas can be used for heating. Less investment, higher automated degree, applicable for the batch production of Twisted Chips on skewer, Spiral Potato on stick and so on. Obviously the downsides to this are you can't really cut curly fries with a Twisted Chips on stick. This takes some blade wielding savvy. You need to take extra care to cut the potato into Spiral Fry so they will all finish cooking at the same time.

Whichever route you go, you want a potato cutter that will be durable, sharp, and long-lasting. Depending on what kind of kitchen you are running, speed may be an important attribute too.

Note the materials the cutter is made of so you can determine how the cleaning process will be. Also compare the warranties for Ribbon potato cutters so you get an idea of how the Ribbon manufacturer backs its products.

Specification :~

Model	WPS-126
Material	Stainless Steel
Overall Dimension	10.25" x 4.5" x 5.5"
Handle & Cutter	11.5"
Center Cutting Area	7" x 4.5" x 4.5"
