

SPECIALITIES OF HOIST:

- ❖ Control voltage transformed into 23V/48V to eliminate possible accident caused by circuit short and assured safety operation when raining.
- ❖ Automatic motor brake system features simultaneous braking upon power failure or switching off.
- ❖ Dual brake system assures safety operation.
- ❖ Limit switches hold chain from running out.
- ❖ Advanced phase error relay keeps motor motionless at incorrect power connection.

Specification:~

Model	Capacity	H	A	B	C	D	Flange Width(mm)
YSF-050	1/2TON	680	295	541	345	196	75-125

6M 230V BLACK BEAR (6 METRES CHAIN)
