## Features :~

**Touch-key calibration**
Automated calibration can be started by pressing keys. (ATX series) Also, your external calibration weights can be used for span calibration (all models).

**Easy setting - Best fit for weighing application**
Quickly adjust the desired ratio of stability and response for every application, even during measurement, with one-touch operation.

**Expanded Piece Counting function**
Unit weights of up to 5 different samples can be easily entered, stored and recalled for use.

**Comparator function**
Compare samples to target values or pass/fail criteria; results are clearly indicated.

**Formulation mode**
Convenient for making many measurements of minute samples and seeking the total mass.

**Windows Direct Communication Function**
Send balance data to Excel® or other Windows® applications without installing any data communication software. By combining standard Auto Print functions with typical spreadsheet functions, even difficult applications can be easily automated. *RS232C interface is needed.
