

Application :~

The mills are especially ideal for the even grinding of cereals and feeding stuffs such as maize, soya bean, sorghum, sun-dried sweet potato chips, oil cakes, rice and chili will rapidly take and reduce them all to a finer degree in one operation, with no residue left in the machine. Apart from the above mentioned application, they can also be used for the rapid beating of paper pulp, reduction of chemical materials and wet soya bean, etc. Efficiency is good and they are always free from being clogged.

Features :~

- Having high efficiency
- Stable, safe and reliable operation
- All to a finer degree
- Less power
- High output
- Install simple, operate easily

Specifications :~

Model	SY-150
Power	1.1KW
Voltage	220V
Frequency	50Hz
Spindle speed	6200-6500r / min
Productivity	20-25kg / h
Waterproof grade	IP * 1
Weight	35.8kg
Dimensions	590 x 270 x 280mm

* Designs and specifications are subject to change for improvement without prior notice.
