

Features :-

Stainless steel furnace body match around efficient perspective glass. The machine has rational structure, simple operation, stable operation, high efficiency with the characteristics of high quality imported stainless steel, high temperature resistant, corrosion resistance, unique design, burn up provinces, hot high efficiency, low cost, convenient to move, easy maintenance and characteristics. Widely extensive use of heat-resistant glass windows, inspect content at a glance, automatic temperature measurement, applicable to all kinds of different temperature, the different time need baking, is the ideal equipment for processing barbecue rich. The equipment is suitable for hotels, guesthouses, canteen, schools, factories, shopping mall, supermarket, etc. To adapt to the wide, safe, convenient operation

Specification :-

Model	OP - 2x2	OP - 2x3
Voltage	220V-240V/50Hz	220V-240V/50Hz
Power	1.5KW	2KW
Machine Size	700 x 650 x 750 MM	985 x 650 x 740 MM
Carton Size	740 x 660 x 750 MM	1010 x 660 x 740 MM
N.W / G.W	27.7 / 29.5 KG	33.5 / 35.5 KG
Material	Stainless Steel
