

- ✓ Stable quality, there is a switch of oil leak in the front, the temperature of the oil above the heating pipe is 180° C, but the temperature of the oil below the heating pipe is 80° C, there are eight heating pipe, small electric ignition.
- ✓ Used Gas: LPG gas (with low -press adjust valve)

Features :~

- ❖ Switch of temperature & ignition material level is same as Japanese Fryer.
- ❖ Nice design of heater, you clean easily.
- ❖ Easy to use oil-leak switch.
- ❖ CNC processing, graceful modeling & quality proof.

Specification :~

Model	ATC-17C	ATC-23C
Capacity	17Liter	23 Liter
Gas Pressure	Low Pressure	Low Pressure
Temperature	160-220° C	160-220° C
Dimension	550 x 600 x 420 mm	550 x 600 x 800 mm
Weight	20 kg	34 kg
