

## Automatic Soybean-Milk Cooking Machine (Gas Type)

### Application: ~

Apply to cook soybean milk, rice milk, red tea and other easy-scorched food.

### Feature: ~

- Never sticks to the cooker and never scorch: strong power stirrer and stainless steel brush of pot bottom can be rotated stably. It can make soybean milk be cooed uniformly and never be scorched. The stirrer can be disassembled easily and so it's easy and sanitary to wash pot.
- Design to keep warm after boiling: to set boiling temperature, when it reaches the boiling point, this machine will beep and flash and then change big fire into small fire automatically to keep warm after boiling. Resistance temperature sensor makes temperature setting more accurate, safe and hygienic.
- To save labor, gas, and time, because of automatic cooking uniformly and never sticking to the cooker, you can save labor by a wide margin and save gas cost of 30% and save time of 50%.
- Safe and hygienic, not to occupy large space for all controller cases is made of stainless steel material, so it's safe and hygienic. Upright design makes the machine not to occupy large space.

### Specification: ~

Model	Power	Voltage	Capacity	Size (mm)	Weight
GMH-2036	25W	110/230v	60 Liters	650 x 650 x 930	54kgs
GMH-2039	25W		90 Liters	~	~
