

Commercial Juice Extractor

The Electric Fruits Juicer is food processing machinery designed, using the modern foreign advanced millstone technology. It juice and press residue will be automatically centrifugalize from fruit or vegetable paste. There are several features of the machine, such as fast pressing juice in high efficiency, safety and hygiene, easy to operate, extensive applications. It is not only suitable for many kinds of fruits and vegetables to press juice such as watermelon, apple, pear, orange, pomelo, peach, almond, pineapple, grape, carrot, celery, spinaches as also suitable for vegetables of more fibrous, such as gingers. The ginger juice is good condiment.

The machine is good looking, compact in construction; the body is made of cast aluminum & all parts in contact with food are made of stainless steel, durable design for commercial use. Special designed blade is made of high quality stainless steel for continuous use. The pushing stick is made of food grade plastic with NSF approved. Therefore, it is the best choice to provide a variety in restaurants, emporium, casino, bar, hotel and fibrous milk processing factory etc.

*Fresh & Pure Juices
Tasty !!!*
