

Food Mixer

Features :~

With its ample dimensions and burly construction, this commercial 5-quart **Kitchen Aid** mixer is prepared to be a culinary beast of burden. Smartly engineered so that the beater moves clockwise while the shaft moves counterclockwise, the beater reaches every part of the bowl without requiring it to rotate. Five mixing speeds plus a stir setting means the appliance can do everything from folding cranberries into biscotti to whipping up a fluffy meringue. The all-metal construction includes a heavy-duty motor to handle stiff batters and a hardwearing transmission that ensures continuous power. The mixer's seamless, stainless-steel, 5-quart bowl stands flat on its indented base and features sealed handle and bracket connections that meet NSF standards. A professional-style bowl lift raises it easily and securely into position, even if it's brimming with weighty dough.

Specification :~

Model	UK5SS
Bowl Size	5 Quarts (4.7L)
Power	325w
Number of Speeds	10 Speeds
Dimension	10.4 x 13.3 x 16.4 inch
