

Horizontal Continuous Band Sealer

FRB-770I is a horizontal sealer with electronic constant temperature control and automatic conveyor system, which can be used in various Assembly line for packaging. It's features includes unlimited sealing Length, reliable sealing quality, reasonable structure, convenience of Operation and etc.

- Good performance, easy to handle, low maintenance cost, simple design parts supplied in standard specification.
- Machine's height and conveyor are fully adjustable.
- Adjustment control for bags of various thickness.
- Cooling device ensure sealed area from opening up before embossing.
- Fully controlled temperature ensure sealed area from opening up before embossing.
- Due to indirect heat, almost all types of heat sealable materials can be use.
- Body constructed from stainless steel material.
- Embossing of expire or manufactured date as standard option.
- Machine speed is fully adjustable to suit difference film specifications.

Specification: ~

Model	FRB-770I
Electricity	230V 50Hz S-phase
Temp. Setting	0~300 /c
Consumption	Max. 500 watts
Main Motor	D/C 60 watts
Heaters	240w x 1piece
Blower	15 w x 1piece
Sealed width	10m
Film Thickness	0.02 ~ 0.80 micron.
Sealing Speed	Max. 13 meters/min.
Dimension (mm)	800 x 390 x 300
Net Weight	30kg
