

Digital Weighing Scale

The Digital Weighing Scale has an 8-bit microprocessor and uses three-integral A/D conversion technology. Conversion speed is 50 times per second. Internal count is 200000.

It can works on AC 220v or DC 6v (battery 1.5v x 4) and has an indicator light of AC power using.

By setting two fixed alarm numbers, the scale can be used as weight limit scale or selecting scale for limit alarm and reject alarm applications.

The weighing scale can be widely used in business, industry and etc.

Main Function Of The Weighing Scale :~

- Works on AC or DC power (battery 1.5v x4)
- Has AC power indicator light.
- DC power shuts off when AC power is supported.
- Has controlled electronic backlight.
- Backlight will glow according to the weight.
- Has two fixed alarm numbers for alarm applications.
- Can be used as weight limit scale or selecting scale.
- Error warning sign.

Specification :~

Model	Capacity	Graduation	Pan Size
Z3C2-6	6kg	1g	245mm x 215mm (stainless steel pan)
Z3C2-10	10kg	2g	
Z3C2-15	15kg	5g
