

The [BBA211](#) is a scale for your simple weighing and over/under check weighing tasks. The rugged and reliable design is suitable for many applications, such as parcel weighing, shipping/receiving and manufacturing. The energy efficient design provides a long operation time when powered using normal alkaline batteries (over 450 hours). This allows for flexible and self-contained operation anywhere in the facility. The [BBA211](#) provides accurate weighing at the best possible price/performance ratio.

### Simple and easy operation

The IP65 protected terminal of the [BBA211](#) is easy to operate using it's 4 keys (Zero, Tare, Functions, On/Off). A logically structured and simple to use software leads you through the different possible settings.

### Good readability

The [BBA211](#) features a large, high contrast 6 digit 25mm backlight LCD display providing clear readability.

### Energy efficient

Due to the use of highly efficient electronic components, more than 450 hours of continuous battery operation can be obtained.

### Robust and reliable design

Highly durable platform due to it's painted tubular steel frame. Easy leveling and high reliability thanks to adjustable feet's and optimal placed overload stops.

Platform

### Specification:~

Model	MBBA211 - Series			
Capacity	1 ton	3tons	5tons	10tons
Platform size	1m x 1m	1.2m x 1.2m	1.5m x 1.5m
