

Shrink Packing Machine

L Bar Sealer

L-bar sealers are designed for shrink film packaging, in one step, you can cut and seal film up to 18" wide of the sealer. Steel construction for quality and durability. Sealing time is controlled by an electronic timer. YC Series Sealer come with a work table. The work table include a film separator, twin perforating hole purchasers, and a film roller. The YC-450 Sealer is blue in colored.

Easy to operate : ~ Set the timer. Insert the product between the 2 layers of center fold film and press down the sealing bar. Slightly pull the package away from the machine. The element wire will seal the edge and cut off the film. Apply hot air using a heat gun or shrink tunnel to shrink the film tightly around the package.

Features :-

- Ideal for quick and easy shrink film packaging
- Steel construction for heavy duty use and durability
- Works with heat gun or shrink tunnel

Specification :-

Model	YC-450HL/ WR
Sealing Length (V x H)	18" X 18"
Power (watts)	1000
Seal Type	LINE
Dimension (Lx W x H)	(YC-450HL) 21.6" x24.8" x 7.5"
Weight(lbs)	68 lbs
Worktable Dimension(L x W x H)	(YC -450 WR) 2736" x 19.7" x 5.5"
Worktable Weight(lbs)	38 lb
