TABLE MEAT GRINDER & SLICER

QJH-PC140 meat grinder and slicer is a machine with two functions. Grinding and slicing can work separately or together. It can cut and grind pork, mutton, beef and many other kinds of meat in a good way and with same thickness. There is a security switch on the cover, the machine stops working when open the cover.

All parts touched with the food are good S/S. The machine has advantages of excellent design, reliable function, high efficiency, beautiful outlook and easy operation. It is the ideal choice for hotel, restaurants, food processing factory and so on.

NOTICE: This machine is only suitable for fresh meat, rather than the frozen meat. And in case of damaging the machine, please remove the bone first.

Specification :-

Model	Motor Power (kw)	Volt (V)	Frequency (Hz)	Thickness of Slice (mm)	Efficiency] (kg/h)	N.W. (kg)	Machine size (mm)
QJH-PC140	1.1	110/220	50/60	2.8/3.5	Slice-500 Grind-500	80	590 x 355 x 510
