

## Features :~

- ❖ Fresh new design, in perfect shape.
- ❖ Simple operating interface, temperature cover a range from 60-200°C. Food can be boiled in it, not just keeper hot.
- ❖ Multi-curved heating tube, make heat spread faster.
- ❖ Equipped with high-resolution thermal couple, temperature is controlled precisely.

**TEMPERATURE Control Freely** Temperature control range: 60~200°C. Adjust the temperature at will, it will stop heating automatically after reaching set temperature, use more secure.

**TEMPERATURE Control Indicator** Reveal all the temperature needed for food, beginners can also be bold to do. Green light is power light, red light is heating indicator light.

**OIL SCALE In Pot** The height of oil can be control

**STAINLESS STEEL Thickening Partition** Removable partition, collocation is flexible.

**MULTI-CURVED Heating Tube** The heating tube interlocking, heat transfer fastly, evenly and efficient utilization, the lifetime is longer than ordinary heat pipe for 2-3 years.

**IMPORTED TEMPERATURE Probe** Adopting Germany import oil temperature probe, accurate temperature control, sensitive and no error, make the food more delicious.

## Specification :~

<b>Model</b>	<b>SMN-15</b>
<b>Power</b>	2.5kw 220~240V 50~60Hz
<b>Temperature</b>	50~200°C
<b>Basket Size</b>	118*210*100mm
<b>Tank Size</b>	236*295*140mm
<b>Machine Dimension</b>	290*460*310mm
<b>Weight</b>	7kg
